

## G. O. P. PLATFORM WILL BE SACRED OBLIGATION-HAYS

Full Hearings on All Important Questions to Be Accorded.

## CANDIDATES IN CHICAGO

Senator Johnson and Senator Harding First to Put in Appearance; Greatest Demand in History For Seats Is Due to Women; Rush Week Ahead.

By Associated Press. CHICAGO, June 3.—The Republican platform, Chairman Hays of the National committee declared in a statement today, will be "a sacred contractual obligation between the party and the people."

Opportunity for hearings before the resolutions committee will be accorded on all pertinent subjects.

Arrangements to hear representatives of women, labor and agricultural interests already have been made and Mr. Hays is distributing voluminous information compiled by the Republican committee on platform and policy.

The National sub-committee, to consider the part women are to play in the government of the party, held a pre-breakfast session today, but failed to reach a definite conclusion. Victor Hays of Cincinnati was commissioned to present certain views to leading Republican women and advise the sub-committee so that a definite plan may be recommended to the full national committee Monday. The committee is confronted with the task of harmonizing the views of two schools of thought among the women. One asks dual control of the party with parallel organization of men and women. The other says that "adequate representation" of the women on the governing bodies of the party would be wiser. A meeting of women has been called for Sunday afternoon.

CHICAGO, June 3.—Two Republican presidential candidates, Senator Johnson and Senator Harding, arrived in Chicago today and their coming marks the beginning of the active days of the pre-convention period. Five days remain before the Republican party assemblies to pick its candidates. Those five days are expected to contain crowded hours of conferences, last minute alignment of forces and final decision among the campaign managers. Every one of the candidates except Herbert Hoover is expected here at some time during the convention.

The advance guards of delegates are beginning to arrive and by Sunday they will be coming in a steady stream. The majority of them are technically unpledged but most of them have their preferences and few are claimed by less than three managers. Some chairmen of incoming delegations are announcing their preference in prepared statements which breathe confidence of success but the political managers standing on the side lines and making up their minds have found no reason for changing their opinion that while some of the candidates have enough fighting strength in the convention it is going to take more than two or three ballots to convince the forces that conciliation and compromise must be applied to bring forth a candidate who will command a majority.

The added interest of women in politics is responsible for the unusual demand for tickets this year, according to Chairman Will H. Hays of the National committee, who said he had received 150,000 requests for the 12,500 seats. More than 1,000 applications for the 578 press tickets are on file.

"The requests from women are unprecedented," Mr. Hays said. "There are 10 for every seat."

CHICAGO, June 3.—D. G. Henshaw, chairman of the Prohibition national committee, this morning drew up two questions for presentation to the Republican presidential candidates and said he was going immediately to their headquarters to ask an answer in person. The questions were:

"Do you believe in the 18th amendment as interpreted by the Volstead act, which act, as you understand, interprets intoxicating liquors to be anything more than one-half of one percent alcohol?"

"Do you favor your party adopting a plank in its national platform endorsing the 18th amendment and its enforcement as interpreted by the Volstead act or some measure equally effective?"

Mr. Henshaw said he intended to tell the whole country what answer each candidate made to these questions.

William Jennings Bryan will arrive tomorrow, Mr. Henshaw said, and the prohibition party chairman will work with him to get a platform endorsement of the prohibition amendment as interpreted by the Volstead act. The candidates will be invited to a meeting Sunday. This meeting was called today by a number of reform organizations, including the Prohibition party, the International Reform bureau and church temperance organizations.

## THOUSAND PAGES TESTIMONY TAKEN IN DIVORCE SUITS OF DR. ALFRED SMITH AND WIFE

Aggregates Half Million Words With End Nowhere in Sight.

## LIBELLANT SCORES TODAY

With the end of the Smith divorce trial not even in sight, a thousand typewritten pages of testimony has been submitted before Judge J. Q. Van Swearingen in Uniontown. This aggregates close to a half million words.

Testimony tending to show that Dr. Alfred C. Smith, respondent in the suit filed by Mrs. Wavona Smith, spent much of his time at the home of Mrs. Bertha Brown, co-respondent, was presented during the forenoon by Mrs. A. C. Richards, Mrs. Martha Anderson and Mrs. A. A. Laughrey.

Mrs. Richards lives in the same apartment as Mrs. Brown. She said Dr. Smith came three and four times a day to the Brown home. She saw nothing indiscreet in the conduct of Mrs. Brown, she said, except that on one occasion when she called while Dr. Smith was there she found Mrs. Brown in a kimono. "She looked as if she had just got out of bed," the witness testified.

Mrs. Anderson, employed at the Smith home and sent to the Brown home to assist in cleaning preparatory to the return of Mr. Brown from a sanitarium said she was cautioned not to let Mr. Brown know that Dr. Smith was a caller.

The doctor practically lived at the Brown home during the last year, according to the testimony of Mrs. Laughrey. Many a time she said she saw the doctor's washed clothing on Mrs. Brown's line.

Dr. Smith and Mrs. Brown were described as "acting like two turtle doves" in their attentions towards each other by Mrs. Lillian Frim of Pittsburgh, testifying yesterday. She variously described Dr. Smith's manner "leaving" and as one "infatuated" in his attitude toward the named co-respondent in the suit. Mrs. Brown said she acted "foolish" and both were characterized as "two silly old people."

## PICKPOCKET ARRESTED

Colored Man Is Held For Court; Gets 90 Days From Mayor.

Giles Drake, colored, who gave his home as Atlanta, Ga., arrested at the carnival grounds last night for attempting to pick the pockets of Frank Showman, was sentenced to 90 days in jail by Mayor John Duggan this morning and later was taken before Alderman Fred Munk and held for court, in connection against him being made by Constable E. Rottler.

The negro was caught in the act of robbing Showman. In one arm Showman was carrying a baby but with the free hand he grasped the negro by the back of the neck, another person in the crowd giving assistance in holding him. He was taken to the West Side police station and searched but only \$4 was found on him. He told Mayor Duggan he worked for a colored newspaper in the South.

## TWO MORE FINED

Additional Arrests Made For Violations of Health Ordinances.

George F. Schomer of Connell avenue and L. Raimondi, were given hearings before Mayor John Duggan this morning charged with violating the health ordinance by dumping garbage within the city limits. Schomer said he had given a boy a quarter to take some rubbish from his place but did not know what had become of it. He was fined \$5. Raimondi was fined \$3 for dumping garbage in a vacant lot on Gibson avenue.

Complaint has been made to the health officer that some persons are throwing refuse over the hill in South Arch street along the Baltimore and Ohio railroad tracks. Parents let their children carry the garbage to the hill top and drop it, it is claimed.

## BONNIWELL FUND \$14,900

Anti-Palmer Candidate for National Committee Received \$1,150.

HARRISBURG, June 3.—Judge Eugene C. Bonniwell, unsuccessful Democratic candidate for national committee from Pennsylvania, spent \$14,900.42, according to his statement filed today. He certified to unpaid bills of \$2,968 and contributions of \$11,150.

The largest contributors were M. L. Bonedum, who gave \$7,000; A. H. Lader, Jr., \$1,500; M. J. Powers and Neale Bonner, each \$500.

Facts Asked on Flag Burning. WASHINGTON, June 3.—The State Department today asked the District of Columbia commissioners for a statement of fact as to the burning of a British flag yesterday in front of the treasury by women sympathizers with Irish freedom.

Railroad Does Blasting. Blasting very plainly noticed in this city this morning were charges placed by a crew of the Western Maryland railroad which is clearing the hill side east of Greenwood. Some of the charges seemed exceptionally heavy.

## TENNESSEE, THE MOST POWERFUL BATTLESHIP AFLOAT, COMMISSIONED

Huge Vessel Built at Brooklyn Navy Yard Represents Expenditure of \$20,000,000.

By Associated Press. NEW YORK, June 3.—The super-dreadnought Tennessee, the largest and most formidable battleship afloat, went into commission today at the Brooklyn navy yard.

Constructed here at a cost of \$20,000,000, it represents the last word in battleship architecture. She is 357 feet long, 98 feet beam and has a displacement of 32,500 tons. She is the next thing to a pleasure yacht in her appointments for officers and men and is the first battleship to recruit her entire personnel from the state whose name she bears.

The Tennessee represents advances taken from lessons learned in the battle of Jutland and other important naval battles of the World War.

## JAIL FOR PROFITEERS

Is Eged by Federal Judge Howe in Imposing Maximum Fine.

SYRACUSE, N. Y., June 3.—In imposing a fine of \$55,000, the maximum permitted, on the John A. Roberts company of Utica for profiteering in the sale of clothing, Federal Judge Harland B. Howe, expressed the hope that this action would serve as a moral lesson to all dealers throughout the country who may be charging unjust prices for necessities.

"I believe that convicted profiteers should be sent to jail. That would do more than anything else to impress the merchants who are doing business that they must confine themselves to fair and reasonable profits."

"But the defendant being a corporation in this case, there can be no prison sentence."

Ten of the 11 counts, on which conviction was reported, covered sales which the government charged were actually made by the government through Department of Justice agents were:

A dress bought for \$15.75, sold for \$35; a dress bought for \$8.50, sold for \$18.50; a woman's suit bought for \$12.50, sold for \$25; a skirt bought for \$9, sold for \$18.50; a coat bought for \$4.50, sold for \$18.50; a coat bought for \$7.50, sold for \$17; a fur coat bought for \$27.50, sold for \$55; a fur coat bought for \$125, sold for \$250; a scarf bought for \$5.50, sold for \$25.

## DRILLING CONTRACT LET

Scottdale Men Preparing to Drill in the Brengle Lease.

SCOTSDALE, June 3.—The Scottdale Oil & Drilling company has contracted with the Ohio Valley Contracting company, McKeesport, to drill the first well on the J. P. Brengle lease. The contractor has agreed to have the drilling material on the ground within three weeks and actual drilling started within 35 days.

The Brengle lease contains 198 acres and in addition to this the company has leased 40 acres on the J. W. Hawk farm and 20 acres on the J. Rooser farm.

The officers of the company are all Scottsdale men: Robert M. Hill, president; O. A. Rush, vice president; H. R. Lynn, secretary, and Alex Taylor, treasurer.

## MCDONALD SELLS

Music Business Taken Over By Frederick Plant Co., Electric Retained.

A deal was closed this morning for the sale by F. T. McDonald of the musical end of the business of the McDonald Music company, North Pittsburgh street, to the W. F. Frederick Plant company of Uniontown. The purchaser took immediate charge.

Mr. McDonald is engaged in removing the electrical end of the business to the former Levy street room in North Pittsburgh street, between the Paramount theatre and the E. Sims' funeral parlors, where the proprietor plans to install a complete electrical appliance stock. A new front will be put in and the interior of the store remodeled. Mr. McDonald was the original salesman here of the modern talking machine, he having started 12 years ago.

Schedule Changes Reported. When the new Baltimore & Ohio schedule goes into effect on June 13, it is rumored that an afternoon train each way will be added. The new train will leave Fairmont for Connellsville at 10 A. M., arriving here about 2:30 P. M. On the return trip the train will leave here about 2:45 o'clock. No official information has been given out on the new schedule.

Lull in Drive Plans. No definite action has been taken yet regarding the drive to be held for the library fund. The committee has a plan in view, but has not yet completed the preliminary work.

Ewing Nabors Injured. Ewing Nabors is confined to his home in Mountain alley with a broken leg as the result of a fall. He will be housed for several weeks.

## RIGHT CONDITIONS WITHIN NINETY DAYS OR QUIT, IS ORDER

State Board of Charities Gives Poor Directors of Somerset.

## CHANGE IN MANAGEMENT

Of County Home, Employment of Commissioner Superintendent, Adoption of Rules for Government of inmates Are Recommended by Committee.

Special to The Courier.

SOMERSET, June 3.—According to the recommendations made by the committee appointed by the State Board of Charities to investigate and report on the charges of cruel treatment and general mismanagement of the Somerset County Home and Hospital for the insane, the directors of the institution are given 90 days within which to remedy the conditions about which complaints were made to the state governing body.

The charges of mismanagement are not declared sustained but there is very plain intimation that there is much in the management and condition of the institution which needs to be remedied. Concerning the directors the report says:

"The testimony shows that the directors in charge prior to January 1, 1920; viz., John C. Miller, J. G. Dietz and E. K. Suder, were indiscreet in the purchase of supplies, in the management of the property, and in hiring and discharging of employees; were indifferent and negligent in the care and supervision of the patients, and inefficient in the general management of the institution. In failing to provide any well devised system of business or rules and regulations for the government of the institution and especially in not providing adequate fire protection or a night watchman."

"The present members of the board are E. K. Suder, president, Henry Wilson, M. D., and John Weaver. Mr. Suder has shown conclusively, both by his testimony and his acts, that he is wholly incompetent to fulfill the duties of this important office. Dr. Wilson, who was formerly superintendent of the institution, has demonstrated that he lives in an atmosphere of suspicion; has planted and sedulously cultivated a spirit of discontent and discord among the employees, has made impossible any unanimity of action or harmony in the present board of directors, and has not hesitated to cast aspersions on the conduct of others connected with the management of the institution by publication in the public press, charges of graft on mere suspicion and in the absence of any proof of the charges made. It is hard to escape the conclusion that he is actuated by inferior motives."

Dr. Norris, the superintendent, was declared to be "not well equipped for this important position." Lacking previous experience in the care of the insane, "his neglect to keep a system of reports" and to investigate complaints together with the entire absence of any set of rules and regulations, point out the responsibility resting upon him, or measure up to the standard which the superintendent of such an important institution should attain, but rather to the conclusion that he is incompetent, negligent and inefficient."

The charge that patients lacked clothing was not held sustained, but it was established that insane patients had been hired out to contractors engaged in public highway construction. The recommendations of the committee were that there must be a thorough re-organization of the management, the employment of a competent superintendent; the adoption of a set of rules and regulations; that the county authorities take action to secure harmony and efficiency in the board. Ninety days will be given within which to apply these recommendations, failing in which the state authorities will revoke the licenses of the directors.

Senate Votes For Adjournment Saturday of This Week.

## EFFORTS TO BLOCK FAIL

WASHINGTON, June 3.—President Wilson has assured Senate Democrats that if the present session of Congress is ended Saturday he will not call an extra session during the coming summer unless there is a grave emergency.

Announcement of the President's decision was made in the Senate today by Senator Underwood of Alabama, the Democratic leader, who said he had been authorized to deny reports that an extra session was contemplated.

Senator Underwood's announcement was made when the resolution for a final adjournment, Saturday, already adopted by the House, was called up for Senate action by Senator Lodge.

"I saw a statement in one of the papers," said Mr. Underwood, "that if Congress adjourns now the President would later call an extra session. I got into communication with the White House and the President's secretary has authorized me to say that if Congress adjourns when I conclude its business and disposes of the necessary business and appropriations, I can say to Congress that he will not call them back in extra session unless a grave emergency arises."

Sharp criticism greeted the adjournment resolution when it came up for debate. Senator Kenyon, Republican, moved to amend it so that adjournment would be August 30.

This motion failed as did another effort by Senator Kenyon to amend the resolution so that Congress would reconvene on July 12.

Congress will end its present session Saturday under a resolution of adjournment adopted after assurances had been received from the White House that President Wilson does not intend to call a session during the summer unless a grave emergency arises. The vote was 44 to 24.

## A. B. NORTON INJURED

Car of Local Man Turns Over Several Times Near Cumberland.

When the steering gear of his automobile in which he was driving to Baltimore broke yesterday afternoon, A. B. Norton, Jr., a member of the firm of Norton & Norton of this city, received lacerations of the head and painful body bruises as his car ran over an embankment on Martin mountain, along the Baltimore pike near Cumberland. He is resting comfortably in the Western Maryland hospital at Cumberland.

Reports received here say Norton was not driving rapidly at the time. The car, in going over the hill, turned over several times and then burst into flames. Norton was rescued from the burning wreck by J. R. Taylor of Baltimore, a friend, who was driving a few yards behind him, and taken to the hospital in Cumberland where his injuries were dressed.

Only a week ago Mr. Norton moved to Baltimore, where he has business interests. He comes to this city frequently in the interests of the local firm. Yesterday he intended to return by automobile and take with him some personal belongings that had not been moved. He left here about 9 o'clock in the morning.

## BOYS OF 17

May Now Enlist as Apprentice Seamen With Consent of Parents.

R. C. VanGorder, chief gunners mate, of the local recruiting station, has received orders to accept the enlistment of young men 17 years of age as apprentice seamen, provided they have their parents' consent.

The minimum weight of 120 pounds and minimum height of 62 inches are required. Boys turned down during the past six months on account of being under age have opportunity now to enter the service.

## Brakeman Injured.

N. A. James of Cumberland, a brakeman on the Connellsville division of the Baltimore & Ohio railroad, was knocked down and seriously injured Monday at Cumberland. James was watching his train backing and did not see an approaching light engine. His skull was fractured, and his right elbow dislocated. He was removed to the Allegheny hospital, Cumberland.

## Delaware Rejects Suffrage.

## PALMER CAMPAIGN CUT LIQUOR PRICE FROM \$16 TO \$5 QT.

Judge Bonniwell Asserts in His Testimony Before Senate Committee.

## PALMER ENTERS DENIAL

But the Philadelphia Stalwart Sticks to His Charges and Gives the Committee Names and Figures Not Dealing With Rumors He Plainly Showed

WASHINGTON, June 3.—The revelations of Judge Eugene C. Bonniwell before the Senate sub-committee investigating the election expenses of the various candidates for presidential nomination have become the political sensation of the hour. The boldness of his statements, and the courage with which he faced Attorney General Palmer who quippedly appeared before the committee and uttered a broad disclaimer and declared "Judge Bonniwell's word is not evidence of fact," occasioned one of the liveliest fits ever witnessed before an investigation committee.

Notwithstanding Palmer's denial of Bonniwell's assertions the latter reiterated the charge that the Palmer factionists granted immunity to liquor men who had violated the Volstead act and mentioned names in support of his allegations. He frankly declared that permits to take liquor out of bonded warehouses were "passed out like tickets to the zoo" and that the Palmer campaign, due to the free use of liquor, broke "the price from \$16 to \$5 a quart."

Judge Bonniwell was questioned by Senator Reed as to what he knew of his own knowledge or observations to bear out charges he had previously made that government officials had misused their authority in Pennsylvania in the interests of the Palmer candidacy.

"In February a gentleman named Henry I. Butler called on me," Mr. Bonniwell replied. "He told me he was manager for A. J. Casey, who has had large liquor interests, and that Mr. Casey desired to be a delegate to the Democratic National Convention and desired my support."

"Within two weeks Casey was a candidate for delegate on the Palmer ticket."

"I say with abiding conviction that men who had always been friendly to me in politics were taken away by a standing agreement with federal enforcement officers that they were to be allowed to take liquor out of bonded control. The state of Pennsylvania was saturated with liquor." "What was the effect of that?" Senator Reed put in.

Mr. Bonniwell indicated that it broke up his political organization.

"The city of Scranton, he added, became the 'wettest spot on the globe,' according to its mayor."

"Aren't the enforcement officers in Pennsylvania appointed by the Internal Revenue Department?" asked Senator Spencer.

## MISS HATTIE BREYER

**BRIDE OF ORA GLASS**  
Miss Hattie Marie Breyer and Ora Glass, a well-known young couple of this city were married at the Baptist church parsonage last evening by Rev. J. E. Edwards. ## MORE THAN A COMPLIMENT.

The unanimous re-election of Senator W. E. Crow as chairman of the Republican State Committee is more than a deserving compliment to this eminent Fayette counsiller. It is recognition of his capabilities and evidence of supreme confidence in him as leader of the party in the Imperial Commonwealth. It is an augury of an overwhelming victory at the polls in November. Senator Crow's command of the united Republican forces of the state in the coming campaign will be an inspiration to loyalty to party principles and its standard bearers that will be given expression in the largest majority ever recorded Republican candidates in the history of this or any other state. The members of the committee are to be congratulated upon their wise choice in making Chairman Crow his own successor. The Republican party is to be congratulated in having a captain who has never known defeat and who will lead it to new and greater victories in the campaign that will restore the government to the people, for the people and by the people, and regain the rights, liberties and sovereignty of the nation which an incompetent administration has attempted to supplant by internationalism.

## A NEGLECTED OPPORTUNITY.

The arrival in Conneltsville of a car load of potatoes grown in Norway should again direct attention to an agricultural opportunity Fayette county is sadly neglecting. The experience of farmers and investigations by the Farm Bureau have established the fact that the soil and climate of the mountain sections of the county are peculiarly adapted to the growing of potatoes of excellent quality and good average yield per acre. We are committing a lamentable and costly economic error in failing to develop an important industry right at our own door.

In view of the advantages we possess, but have not yet shown the enterprise to utilize, the importation of potatoes from anywhere outside the county, not to mention bringing them from Europe, may at times be necessary and also good business for the dealers in farm products and food stuffs, but it is not helping the farmers of a very large section of the county. That these farmers are not at present in position to retain the profit that is now going to potato growers in far away Norway and in states outside of Pennsylvania, is very largely their own fault. Apparently the possibilities of potato growing on a large scale has not been considered sufficiently to impress farmers of the mountain townships with the opportunities in this line. Again, the facilities for reaching the markets have not been developed to the extent necessary to bring within easy reach of shipping points all sections where potatoes can be grown successfully. Further, the well known conservatism of farmers, and their disinclination to change methods or crop rotation, has something to do with the delay in developing what, there is every reason to believe, would form a highly profitable venture in the direction of still more diversifying the industries of the county.

The matter is one of such importance, however, both as a source of revenue for the farmers and as a means of providing our own markets and retaining the profits within the county, that it should be made the subject of very serious and thoughtful consideration by individual farmers, the Farm Bureau and the farmers' organizations. To stimulate the activity the business men of the trading centers of the county should also manifest their interest in the proposition and seek by every possible means to encourage the development of this useful and very necessary expansion of agricultural enterprises.

With Judge Bonnell becoming a trifle more specific, as he doubtless will as the campaign progresses, in revealing the inner secrets of the Palmer campaign, and in explaining the real meaning and purpose of the "mysterious disappearances" from the bonded warehouses, there will arise a frantic S. O. S. call from Barfoot headquarters imploring somebody to issue a mandamus or a mandamus on the bond and dunder Jeffersonian leader who has formed the habit of telling untruths.

The next step of the Thompson creditors ought to be to form a veterans organization and arrange for annual reunions.

With an undoubted leadership, undefeatable issues and candidates, the Republicans of Pennsylvania will administer a defeat to the divided and discordant Democrats in November that will over all the spoken of as the "Democratic Holocaust of 1920."

But two G. A. R. veterans taking part in the Memorial Day exercises at Northington and but nine out of an original membership of 83 at Smithfield, remind us sadly that time is decimating "the thin line of blue," without providing replacements.

Between the report of the sugar investigating committee declaring that Attorney General Palmer "acted wholly without authority, of law and in violation of his own construction of his official duty," and Judge Bonnell asserting that "the whole Palmer campaign in Pennsylvania has been a ghastly and abominable degradation of law," not to mention the sudden soft peddling of the Barfoot organs as "boastful of his candidacy for the presidency, these may be very appropriately described as rather cheerless days for "the fighting Quaker."

With the stiff sentences and fines to the limit the courts are imposing on convicted profiteers the time should be near at hand when some of the beneficiaries of large profits ought to sit up and take notice.

Those inclined to place wagers would no doubt be willing to take any kind of odds that certain Barfoot organs in the Western District of Pennsylvania, thanking their stars that Judge Bonnell lives in Philadelphia instead of in some place where reputed "mysterious disappearances" have taken place since January 18 last.

## Thrift and Saving Receives Hard Blow

Manufacturers Record.

In destroying the selling price of Liberty Bonds the Federal Reserve Board and those working in connection with it have done more harm in breaking down the growing sentiment of thrift and saving than they can undo in years to come. Millions of people who had never undertaken to save money by personal sacrifice became bond buyers, and it was hoped that these people would gradually develop a sense of thrift and saving which would create a great national spirit of thrift. But the banks and the Federal Reserve Board and the Federal government told the people that these bonds were the best investment in the world, they were the safest that could be made, and that they would always be worth the selling price, and when the war was over would rapidly advance in value.

But when the Federal Reserve Board began its campaign to break down these bonds by throwing them out of bank loans it made millions of people feel that any promise made by the government or by bankers in regard to investments was absolutely without any integrity back of it. They said to themselves, "If government bonds are not safe and if they are steadily declining in value, why should we scribble and save in order to buy other securities?" They have said to themselves, "We already see a loss of from 12 to 15 per cent upon our investment, which was made on the promise of the banks and the promise of the government, and the integrity of both are staked on these promises. But these promises have proven as valueless as shifting sand as a foundation on which to develop thrift and saving, and so we will spend our money as we have been doing. We will no longer deny ourselves the things we want to buy so long as we have the money with which to buy them."

The Federal Reserve Board and the bankers of the country have thus given almost a death blow to the development of a habit of saving and of investment in securities by millions of people who have lost faith in all the promises of the Treasury Department, the Federal Reserve Board and the bankers of the country. In this way infinite harm has been done to the future of the nation and to the character building work of thrift and saving, even if there were not innumerable other reasons why the recent work of the Federal Reserve Board and the banks under its control has been an injury to the land.

## Just Folks

Edgar A. Guest.

**WONDERIN'**  
 I wonder if the fun today is like the fun we knew  
 When we were racin' bare of foot through fields all wet with dew;  
 I wonder if the kids today know all the apple trees  
 The way we knew them long ago, an' if the summer breeze  
 Seems just as sweet to them out there as it once it seemed to be  
 In those old days of happiness now lost to you an' me.

I watch 'em from the railroad cars, an' see 'em race about,  
 I know the games they're playin', an' I think I hear 'em shout.  
 I see 'em fishin' in the creeks an' ponds, an' wonder, too,  
 If they are catchin' beauties there the way we used to do.

Oh, I had youth like that, think I like that I used to play.  
 I wonder if they're havin' all the fun we had, today.  
 Time brings its changes, but I feel that youth remains the same,  
 Age leaves its treasures, joys behind for younger hearts to claim.  
 An' youngsters everywhere today are racin' high an' low  
 Ownin' the glorious happiness that once we used to know.

But I suppose like us, they, too, will not appreciate  
 The pleasures of their robbet years until it is too late.

## JOBS SECURED FOR 14,075 PERSONS BY STATE BUREAU IN APR.

Of This Number 2,561 Were Ex-Servicemen: All Classes of Skilled and Unskilled Positions Filled.

The free employment bureau operated by the Pennsylvania Department of Labor and Industry obtained positions for 14,075 persons during April, according to an announcement made on Monday by Commissioner Clifford B. Connolly. Jobs were found for 2,561 ex-servicemen, 10,472 for male civilians, and 1,042 for women. All of them were given work in this state.

As compared with previous months, the April report showed a marked increase in the number of persons placed in skilled labor, sales, clerical and executive positions. The figures show a decrease in common labor placements and in the number of women placed in domestic service.

There were 314 women employed as domestics through the state employment bureau, as compared with 490 in March. Four hundred and thirty-seven other women were given work in day jobs, and 701 women obtained employment as clerks, saleswomen, stenographers and technical workers. Positions were procured for 1,234 ex-servicemen as common laborers, while 1,327 former soldiers were assigned to positions requiring more skill. Jobs as common laborers were found for 5,032 male civilians, and 5,450 other men were put into clerical, sales and executive positions. The total number of labor placements represent wages of nearly \$57,000 a day and of about \$1,750,000 a month.

Special to The Courier.

SCOTSDALE, June 2.—Commence-  
ment exercises of the graduating class  
of the Scottsdale high school were held  
last evening in the Scottsdale theatre,  
with the following program: Music,  
orchestra; invocation; music, high  
school orchestra; May pole dance,  
orchestra; Elizabeth Oberly, music;  
"Honor Club" oration, James Knowles;  
music, high school orchestra; address,  
Dr. C. C. Ellis; presentation of  
diplomas; music, by the orchestra.

Miss Elizabeth Oberly won first  
honors and James Knowles second.  
Graduates: Gladys Brownfield, Gertrude  
Eicher, Elsie Hawthorne, Jane

**HIGH SCHOOL GRADUATES**

**ATHLETIC DIRECTOR**

In an effort to secure an athletic  
teacher in the local schools, 100 high  
school graduates have signed the fol-  
lowing petition and submitted it to  
the school board:

"We, the undersigned graduates of the  
Scottsdale high school believe that  
a new poll towards athletics in the  
high schools should be adopted. Under  
the present system no results are being  
obtained from the material which they  
have on hand, and no general policy  
towards athletics is in force in our  
schools.

"First—We believe that your hono-  
rable school board should appoint a  
teacher, the high school whose  
principals would be the coach of  
athletics (such as football and basket-  
ball); if this man should be well  
qualified for his position and that  
teacher should not be secondary  
with it. (This policy is in force in  
practically all the schools which sup-  
port athletic teams.)

"Second—That there should be a  
student manager, a student secretary,  
and student treasurer, so that the  
activities from each and every game  
should be published within five days  
after the close of that particular  
game.

"Third—That the Scottsdale school  
board should provide a fund for its  
athletic teams and reward the men  
who play on such teams in a proper  
and suitable manner."

**Mrs. Dobbie Dies.**

Mrs. Marjorie Dobbie, 65 years old,  
wife of Peter Dobbie, died at  
last home place on Tuesday evening.  
Funeral services will be held Fri-  
day afternoon at 2:30 o'clock at the  
A. M. E. Zion church and interment  
will follow in the Scottsdale cemetery.  
Mrs. Dobbie is survived by her hus-  
band.

**Hysteria.**

Luke weeds in a garden, there's a  
bewildering popping up of garments;  
"saves" all over town—  
Guilty conscience, fear of the law  
or the scorn of the public—it's cer-  
tainly something that's causing the  
hysterical to run to talk.

There's a lot of talk about the  
professors being requested to see the  
error of their ways and there may be  
some fire where there's so much  
smoke. It doesn't pay to let dollar-  
snatching interfere with honest busi-  
ness.

I believe in square dealing fifty-two  
weeks in the year—and spasmodically  
I believe in marking up prices at the  
lowest possible notch for every cus-  
tomer every time—no compulsion is  
ever necessary.

I have but one system—the right  
system in the first place and therefore  
right under all conditions. High  
grade garments made for satisfaction,  
with a small profit per each garment,  
based on the largest volume of cash  
business.

Common sense is still in the ring  
despite the blarney of the conscience-  
stricken. What a store confesses, by  
announcing "reductions," that it has  
been "stingy" its customers  
on one hand, you can't help  
wondering what the other hand is up  
to now.

Benjamin's decisive underpricing  
feature will undoubtedly demonstrate  
to new customers that Benjamin's is  
one store where profitable purchases  
by our patrons are the rule—not the  
exception. By making many unusual  
purchases of reasonable merchandise  
we are able to present opportunities  
to save which have not been equalled  
for many past. Benjamin's Ladies  
Store, you get off the car, Scott-  
sdale.

Change of Life is one of the most  
critical periods of a woman's existence.  
This good old-fashioned root and herb  
remedy may be relied upon to overcome  
the distressing symptoms which accom-  
pany it and women everywhere should  
remember that there is no other remedy  
known to carry women so successfully  
through this trying period as Lydia E.  
Pinkham's Vegetable Compound.

If you want special advice write to  
Lydia E. Pinkham Medicine Co. (con-  
fidential), Lynn, Mass. Your letter  
will be opened, read and answered by a  
woman and held in strict confidence.

**Smithfield.**

SMITHFIELD, May 29.—Sheriff I. I.  
Shaw, William McClelland, T. S. Gor-  
ley and Mr. L. L. Man of Uniontown were  
in the borough Saturday for the pur-  
pose of holding an inquisition on the  
Caroline Young property, a house and  
lot on Church street. The property is  
underlaid with the nine-foot vein of  
Connellsville coking coal. Messrs. L. L.  
Man and Gorley of Uniontown and G. A.  
Feather, Curtis Shaw, T. O. Wise  
and H. O'Neill of Smithfield, appointed  
appraisers by Mr. McClelland, put a  
valuation of \$2,725 on the place.

Mrs. Elizabeth Hahn and daughter,  
Mrs. William Martin, of Pittsburgh, vi-  
sited relatives here over Memorial Day.  
Harry Mathiot returned from Flori-  
da, Wednesday, where he had spent  
the winter.

Mrs. Jessie Wick Showalter return-  
ed Friday from the Oregon sanitarium,  
where she had been taking treat-  
ment for a year.

J. C. Hahn, an inmate of the sol-  
diers' home at Erie, was unable to be  
here for Memorial Day because of ill  
health. His son, C. H. Hahn, who  
went to Erie to accompany his father  
here, returned without him.

D. H. Baer has recovered from his  
long siege of illness and has resumed  
his duties as clerk in the Consumers'  
Supply store.

for years and I have taken quite a  
number of medicines. None of them  
takes hold and helps like Foley's  
Honey and Tar." This old, reliable  
cough syrup promptly helps coughs,  
colds, croup, and whooping cough.  
Contains no opiates. Children like it.

## Better than Pills

YOU WILL NEVER wish to take another dose of  
pills after having once used Chamberlain's Tab-  
lets. They are easier and more pleasant to take,  
more gentle and mild in their action and more reli-  
able. They leave the bowels in a natural condition,  
while the use of pills is often followed by severe  
constipation, requiring a constant increase in the  
dose. Every bottle guaranteed by your druggist.

## JACK QUINN TELLS OF EARLY DAYS OF BASEBALL CAREER

Several Dunbar Men Given Credit For His Start on Road to Fame.

CHIEFLY M. FITZGERALD

Sometime ago we ran a story of Chris Wagner's ambition with the national pastime. Incidentally Jack Quinn's early start in the game played a prominent part in the story. A copy of The Courier, carrying the story was sent Quinn. A reply from Quinn follows:

"New York, June 1, 1920.

"The Courier,

"Connellsville, Pa.

"Dear Sir:

"I received your letter of April 13 and I am proud to learn that the boys back in the coke region are still interested in me. I had wished many a time to get an opportunity to go to dear old Connellsville, pitch a game and give the boys a treat. As to who discovered me, that is a question, in my opinion, that lies among several men, John Maloy, Chris Wagner, Alex Duncan, John Wishart and Zed Warrick, and my real professional game (my first) I played with New Haven when Carl Bishop was manager of that club. Carl was a handy boy and I hope he is having as much success at the present time as I am.

"I give Michael Fitzgerald, foreman at the Dunbar furnace, lots of credit for my start. When I needed help Fitz was kind to me and gave me work and a start in this world. He seemed to take a great interest in me. He would let me work every time I had an opportunity to play ball. This is more than many foremen would have done. Had it not been for his kindness I probably would never have developed into a ball player. John Maloy, Chris Wagner, Alex Duncan and Ben Graves were others who took an interest in me and through their encouragement I developed with the Dunbar club to be good enough to go to Connellsville later.

"Oh, when I think back and go over my career, I just imagine I could write a story good enough for moving pictures. Right now I will put a flower in my cap and say that I am a better pitcher today than ever I was in my life. I only wish I had known 15 years ago all I know today about the game. Yours very truly,

"JACK QUINN."

### MONARCH HAS EASY VICTORY OVER LAMBERT

The Monarch (east) traveled to Lambert Tuesday and defeated the team of that place by the score of 7-6. Monarch took the lead in the first inning and held it all the way through, being in danger only in the last inning when Lambert had the bases full, with none out. Polly, pitching for the visitors, fanned the next three up.

The summary:

Monarch 120 631 0-7  
Lambert 001 630 2-6

Batteries—Monarch, Polly, J. Ward-

zello and Hart; Lambert, Milligan

and Cobb.

### B. & O. AT SMITHFIELD FOR FIRST GAME ABROAD

The Connellsville Baltimore & Ohio baseball team will play its first game abroad tomorrow, when it goes to Smithfield to meet the railroaders of that place. If the locals can defeat the Smithfield team as easily as they defeated Somerset, they will have no trouble in winning the championship of this division and will also be a strong contender for the entire B. & O. honor.

### TROTTER LEAVES MONARCH ON LATTERS FIELD, 10-3

Trotter got away to a flying start in the first of three games on the schedule for this week. The Prick boys journeyed to Monarch yesterday and defeated the team of that place by the score of 10-3. Amie Frazier did the twirling for the Trotter team.

### KIRLEYS TO HAVE GOOD TEAM HERE SATURDAY

Jack Coyne, manager of the J. B. Kirleys of Pittsburgh, which team plays the Connellsville Independents next Saturday at Fayette field, has had Connellsville on his schedule before. Coyne was manager of the Southern club which played the old Connellsville Independents a three-game series a few years back. Coyne, by the way, was one of the first managers to seek a game with the Independents, when the club was first organized. He has always spoken highly of this city as a baseball center and promises to have

### PHOTO ON DISPLAY

Ralph Ward, the local photographer, who took the photo of the Connellsville Independents on Memorial Day, has finished some of the pictures and placed one on display in the window of Knox' cigar store.

### BOXING

Billy Carter, the local boxer, has started active training for his bout with K. O. Billy Anglo, which takes place on the 11th of this month.

Johnny Doolittle, the Uniontown scrapper, was matched yesterday to meet Kid Atlas at Akron on June 18.

### NEW RULE CAUSING TROUBLE

Difficult for Umpire to Determine Whether Batter Tried to Dodge a Wild Pitch.

The new rule making the ball dead if it hits the bat when a batter is dodging a wild pitch is already causing trouble. The umpire's judgment as to whether the batter tried to dodge decides, and of course that judgment is disputed according to the advantage gained by the teams playing. Every time some batters hit a foul blow or an easy grounder to the infield they claim they were trying to dodge a wild pitch.

Much of the sympathy that was extended to Kid Glendon just before the start of the season by those who predicted dice things for his club already has been recalled. The White Sox are stepping along like real champions.

### A Practical Prescription For Sour, Acid Stomach

Nine-tenths of all cases of stomach trouble nowadays are caused by too much acid. In the beginning the stomach itself is not diseased but if this acid condition is allowed to continue, the acid is very likely to eat into the stomach walls and produce gastritis with stomach ulcers. This may render a radical surgical operation necessary even to prolong life. Therefore, an "acid stomach" is really a dangerous condition and should be treated seriously. The excess acid or stomach hyperacidity can easily be neutralized by Bismarck Magnesia taken in teaspoonful doses in a glass of water after each meal. Larger quantities may be used if necessary as it is absolutely harmless. Be sure to ask your druggist for the pure Bismarck Magnesia especially prepared for this purpose.—Adv.

## BASEBALL STORIES

It is not very difficult for an umpire to find an excuse for doing what he wishes.

Jack Quinn of the Yanks says he'll be as effective without the spitter as with it.

Connie Mack has sent one of his catching prospects, Styles, back to the Atlanta club.

Bert Kinney of the Athletics is developing into one of the best pitchers in the business.

Manager John J. McGraw of the Giants has been active in baseball thirty-one years.

Reuther, lucky last year, seems to have become heir of the flax that tormented Jimmy Ring.

Johnny Doherty declares he is serious in his announcement that this will be his last year in baseball.

The Brantford Min league club has sold catcher Phil Carroll to Sioux City of the Western league.

Jack Wisner, a lengthy youth, has a world of speed. He's just wild enough to make the hitters stand back.

Players come and players go, but Johnny Austin keeps on holding down third for the St. Louis Browns.

Dowd, formerly on Connie Mack's payroll, seems to have clinched the middle sack on the Bison infield.

Some of the star hurlers were unduly treated in the opening games, but their revenge will come later.

Arthur Devlin, coaching Fordham college, is said to have a wonderful young pitcher in a lad named Oulleton.

Al Schacht starred as a shutout twirler last season at Jersey City and he is showing the same form in the majors.

Casey Stengel is showing as much vim in a Philadelphia uniform as he displayed when with the Robins or Pirates.

Ross Young has invented a new stunt which consists of popping the ball about three inches over the third baseman's brow.

The Athletics were white elephants last year. This year they are green; but elephants are all right unless they are pink.

Even the college dimes are kissing the "spitter" goodbye. The West Virginia university team has ruled it out as objectionable.

Morris Rath is hitting terrifically. Looks as if he might realize his great ambition to hit over 500 for a whole season in the big league.

Another Brazil in baseball this year is John Brazil, who bails from Scranton and has signed with the Pittsburgh Eastern League team.

Lippett of the University of Georgia, pitched a no-hit game against the University of Pittsburgh, Georgia winning 6 to 0.

Umpire Rigler is taking singing lessons. Since the talented Bill Byron went West some one must vociferate for the amusement of the fans.

Otto Koeppling, second baseman of the Molino Three-I league team, has quit organized ball and joined an independent crew in Sterling, Neb.

The strong Holy Cross team has sustained a severe loss in the injury of Captain Barb Daly. The Purple leader is out for the season with a broken ankle.

Detroit probably will have a better pitching staff than last year, but at present no great amount of confidence is being placed in the ability of the Tiger flingers.

The more one sees of Perkins, the peppy receiver of the Mackmen, the stronger becomes the impression he is rapidly forging to the front as the best in the game today.

When it comes to picking the most versatile player in the National league don't overlook George Whitted of the Pirates. He can play a strong game at any infield or outfield position.

M. Jacques Fournier, former member of the White Sox, who is playing an efficient first sack for the Cardinals and also whanging that old horse in lousy fashion, believes the short rightfield fence at the Chicago Cubs park is made to order for his style of swatting.

### YOUNG BALL PLAYERS DECREASE IN MINORS

Few Good Performers Coming Up From Bush Leagues.

Recent War Killed Off Many of Smaller Clubs, Thus Lessening Crop of Promising Recruits—Good Thing for Veterans.

One of the serious results of the war from a baseball standpoint is shown in the lack of young ball players coming up from the minor leagues. Of all the recruits taken south by the different major league teams but very few are to be seen on the team now that the championship season is under full sway. The scarcity of young ball players is a good thing for the veterans, for it will keep them in service longer, but it means that it will grow more and more difficult to recruit the big league teams unless there is a greatly increased interest in minor league ball as played in the smaller cities.

The war killed off most of the smaller leagues, thus lessening the crop of young ball players to be purchased and drilled. For two years the minors were either not operating at all or doing so on a very small scale and with inferior players. Most of the boys who would have been starting out on a baseball career were in the army in those days and many of them will never go back to baseball. The supply of baseball talent was almost entirely cut off for at least two years and the result is that most of the major league clubs are shy of recruits and are going ahead with their veteran players.

The present condition among the minors is much improved so far, especially as the larger leagues go, but it is not at all like it was before the war. The reason for this is that salaries and wages in other positions are so vastly increased that a lad of any real skill or ambition can do much better by sticking to his job than he can by playing in a minor league of lesser classification. It used to be that a boy off the lots looked upon a salary of \$350 a month as pretty good money for starting out with a ball team. Now he can earn much more than that by staying at home and playing on Sundays and holidays with some independent team.

It is hard to get smart youngsters to start at the bottom of the baseball ladder. The rewards of the star players up above are ample, but the young player who is not sure of making good in a couple of years hesitates about giving up a good position at home to join out with a Class C or D club. The problem will gradually adjust itself as things in the business world return to their former level, but it is going to be difficult to recruit largely from the minors for a season or two at the least.

### CRUDOLEUM

FOR POLISHING HIGH CLASS FURNITURE

You simply must try CRUDOLEUM for polishing furniture. Its touch leaves that rich soft glow that makers of high-class home fixtures take such pains to attain. Step into the finishing room of the piano factory, if you please; if you watch closely you will usually discern the bottle which contains the same old-time polish, "Petroleum," that brightened the homes of many years ago. It has marked the passing of many other polishes. CRUDOLEUM is the higher, cleaner, purer grade of that time-tested, undoubted petroleum.

Nature, in its marvellous laboratory, has compounded CRUDOLEUM with exactness, filtered and re-filtered it until clean and clear, then stored it in the chambers of the rocks, from which place man's ingenuity sent it gushing cool and sweet, rich and light in color, bubbling and sparkling into the sunlight, a perfected and finished natural product. Although its beautiful color was admired by many who visited the well, it was the president of the Simpson Drug Co. who saw in it, on account of its exceptional purity, great possibilities as a superior product for drug and chemical uses. The Connellsville Drug Co. and the Broadway Drug Co. who are agents in Connellsville and Scottsdale, sell a large bottle for 50c, and are authorized to return your money to you if you are not pleased with CRUDOLEUM. If your druggist does not keep it, send 40c to Wm. H. Simpson Drug Co., Wholesale Druggists, Wilkesburg Station, Pittsburgh, Pa., and you will receive a half pint bottle by return mail.—Adv.

### Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James E. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of costly money, that no one can be free from rheumatism until the accumulated impurities, commonly uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called, marvellous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspaper.

Connellsville Drug Co. and C. Roy Hertz have been appointed agents for Allegheny in this vicinity with the understanding that they will freely return the purchase money to all who state they received no benefit.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

## BILLION GALLON OIL INCREASE IN STATE POSSIBLE

By Extraction of Product From Coal, Says State Geologist Ashley

### SHALE FOR THE FUTURE

Little Probability of Resort to the Source of Supply Until Demand for Gasoline Boosts it to Half-Dollar Mark; New Process Coal Treatment.

Special to The Courier.

HARRISBURG, June 3.—Declaring that the increased consumption of oil and gasoline in this country will necessitate the finding of additional sources of supply, Dr. George H. Ashley, chief of the topographic and geological survey in the Pennsylvania Department of Internal Affairs, today predicted that the next 10 years will see a revolution in the use of coal and that oil shales will be used extensively in oil recovery. He said that by proper treatment of one hundred million tons of the 180,000,000 tons of bituminous coal mines in Pennsylvania each year, the oil supply in this state could be increased by over one billion gallons.

The use of oil shales for distillation purposes, said Dr. Ashley, is an extremely expensive proposition and he indicated his belief that this method of procuring oil for the making of gasoline would not likely be brought into use until the retail price of gasoline would reach 50 cents a gallon.

In discussing the possibility of securing oil from coal, Dr. Ashley said: "Today, except for metallurgical purposes, we burn coal in a raw state, wasting, when used for power, from 80 to 95 per cent of the heat and energy in the coal and all of the oil gas, tar and other by-products, except as they are burned in the fire. It may safely be predicted that the next 10 years will see a revolution in our use of raw coal. Already the by-products coke oven is replacing the old beehive oven."

The coke is made by the distillation of bituminous coal at a high temperature, around 1,200 degrees, the by-products being used for heating and illuminating, tar and ammonia. If, however, bituminous coal is distilled at a moderately low temperature, below 750 degrees, the quantity of gas given off is reduced and coke is replaced by a smokeless fuel, called in one process, "coalite," having the same heating value as an equal weight of coal and oil.

"A plant operating in England with English coal is reported as obtaining from one ton of coal, three gallons of motor spirits, suitable for every purpose for which gasoline is used, 16 gallons of oil similar to crude petroleum which can be used for burning, light, lubricating or for distillation; 7,000 feet of gas, richer in heat and higher in candle power than ordinary coal gas; 30 pounds of sulphate of ammonia for fertilizing; and high explosives and 1,400 pounds of smokeless fuel."

"Contrasting these figures with those showing the production from by-product coke ovens now operating in the Pittsburgh district, it should be noted that the coke ovens operating at a high temperature give only 1,500 pounds of coke and no oil but give 300 pounds of tar and only six and one-half pounds of ammonia sulphate, three gallons of benzol and 7,000 feet of gas."

Pennsylvania is at this time mining about 180 million tons of bituminous coal a year. "If one hundred million tons of that were first passed through a process as that mentioned," concluded Dr. Ashley, "it would increase our oil supply by over one billion gallons."

## HIGH COST OF EATING DIDN'T BOTHER THIS MAN

Geo. Braegger Wanted to Eat But Food Was Repulsive Until Nerv-Worth Fixed Up His Stomach.

"I was left in a very nervous and run-down condition," says Geo. Braegger, 78 Bell Ave., Elyria, Ohio. "Stomach was in bad condition. Appetite and digestion in bad shape. Tossed about all night and was losing strength and weight. Could not eat. Food seemed to be repellant and I did not want to eat what I formerly liked. Lost eight pounds. After taking two bottles of Nerv-Worth I regained my strength and weight. Stomach and digestion perfect. Sleep soundly all night through. Am not nervous and my appetite and digestion are in fine condition. I am strong and vigorous again. I think Nerv-Worth is a wonder, and a sure and safe cure."

Nerv-Worth is wonderfully success-

ful as a builder because of the way it acts. It aids digestion, drives out impurities and poisonous acids. It helps the stomach get full value from the digested food. It regulates the bowels, builds nerve force and tones the whole system. Is it any wonder that this man regained his lost weight with such help. Get back your vigor and strength. Be healthy and strong. Let Nerv-Worth tone you up. It whets the appetite and is equally good for young or old. Pleasant to take and contains nothing harmful. Guaranteed to be free from all narcotics or habit forming drugs. Sold and recommended by the Connelville Drug Co. and the Broadway Drug Store, Scottdale.—Adv.

## Don't Treat Kidneys Rough, Warns Dr. Carey, Specialist

New that Dr. Carey, kidney and bladder specialist, has retired from active practice, he generously warns people that even the smallest symptoms of kidney trouble should have serious attention. Backache, for instance, puffiness under or specks floating before the eyes, heavy feet and dry skin, are also danger signals. "The kidneys die yearly because they neglect their kidneys," says Dr. Carey, "and I feel upon retiring that I should tell all who even suspect kidney or bladder trouble about my prescription, Marshroot, which, during my active practice, has cured thousands of all kinds of kidney ailments." This prescription has been given to pharmacists generally throughout America and is dispensed by them under the name Dr. Carey's Marshroot, a name that every sufferer from kidney trouble should remember. Connelville Drug Co. and C. Roy Hartzel can supply you.—Adv.

## At the Theatres

### THE PARAMOUNT.

"WHO'S YOUR SERVANT"—The sensational picture story, adapted from Julian Johnson's celebrated play which started New York during its long run at the Princess theatre, is being shown today.

One of the appealing characters of the story is a beautiful young girl who is bothered at times by the attentions of her father's servant, a young American-educated Oriental, who is employed as a valet, and general house servant. She does not suspect that the man is trying to steal other things than her affections, and it is only when a very valuable paper disappears from the safe of her father that she begins to suspect that the servant is "crooked."

She decides to find out if the man has the stolen property. So she allows him to think that she has begun to fall in love with him, and consents to go to his room at night. Once there she leads him to tell all about himself and how he came to steal the paper. Then, in a tremendous climax, she engages in a personal encounter with the servant, gets possession of the paper and escapes.

### THE SOISSON.

"THE BUTTERFLY MAN"—Lew Cody's second Louis J. Gasnier production which was made for Robertson-Cole, because of the fact that it is an exquisitely gowned picture, is being shown today. Nearly all the action takes place in a "high society" atmosphere and the women, headed by Louise Lovely and Rosemary Theby, wear wonderful gowns. Miss Lovely plays the part of the society girl whom Cody, in his character of Sedgewick Blynn, is trying to marry.

Miss Leslie plays a society matron, who is much interested in the debonair young man. Both have frequent opportunities for changes and each in the course of the picture wears many Paris models.

In the roles of debutantes and other girls, in the various upper strata of society, are seen half a dozen other actresses all of whom are beautifully attired.

Then there is a "Rose Colored" scene and a bathing scene, both of which give opportunity for the use of fetching evening frocks and bathing costumes.

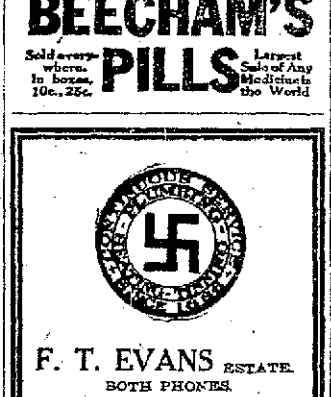

Of course the men who care for up-to-date attire are not disappointed for Mr. Cody is one of fashion's paragons of the screen.

The physician took the note and read it in a glance. "Hm—quite true. That new psychopath. Must go." He nodded to his wife as he stepped back into the car. "Excuse me to Mr. Clinton, my dear. I shall return in time for dinner."

Mrs. Kirkland smiled at her guest as the car glided away. "The time of a specialist is little more his own than that of an old-fashioned family doctor," she said. "My husband is an alienist." She turned to the housemaid. "Is Miss Ellen at home?"

"Yes, ma'am. She came back half an hour ago."

"Tell her Mr. Clinton is to dine with us."

The little maid fitted up the lawn and into the house. Mrs. Kirkland and the guest sauntered after her. The west fronting of the porch afforded an across-town view of the snowy range, now halved with a magnificent sunset. The traveler paused in the porch, midway between the steps and the door.

"What a view!" he exclaimed. "You enjoy it?" the lady was quick to catch him up. "Then, if I may ask you to excuse me for a few moments, I shall leave you out here in the porch."

He sprang to open the screen door for her. But the moment she had gone inside he went across to the porch wall and stood gazing at the sunset, forgetful of all else than the gold and scarlet and red that streamed up through the fleecy clouds above the indigo mountains and white peaks into the azure sky.

Around the corner of the house strolled a tall, fair-haired girl, carrying in one hand a novel and in the other a fan. The very sight of the sunset caught her gaze, and held it while she passed the corner and mounted the end steps of the porch.

At first sight of the unconscious traveler she straightened with an impulse of maidenly reserve. This was instantly succeeded by amazement as her eyes rested on the man's strong profile. She stopped, transfixed, gazing at the traveler as if dazed. She had the look of one unable to believe some great good fortune.

The traveler was so absorbed in his enjoyment of the view that he failed to heed the girl's light tread on the cement floor of the porch. She was almost within arm's length of him

"Clinton is My Name—Richard Clinton."

when her joyful eagerness forced from her half-parted lips a breathless little cry: "Will!"

The young man faced about with a start, and stared at the girl in blank surprise. He saw a beautiful, glowing face, a pair of gray eyes aglow with love, a shapely mouth curved in a tender smile. As his hand went automatically to his cap, she half raised her arm as if she expected him to embrace her.

"Dear Will!" she repeated. He hurriedly gave back a step. "I beg your pardon. Clinton is my name—Richard Clinton."

"O—ah!" she exclaimed, shrinking back in turn, perplexed and alarmed at his strange behavior. "What—how—the way you look at me! Can it be possible that your loss of memory—" She clasped her hands to her bosom. "But it can't be! It can't! You never could forget me, never! Say it! Say you haven't—haven't forgotten me, Will!"

"But I—don't understand. It's some mistake. A case of—"

"It is, of course it is!" she broke in. "You admit it. Your poor dear head was at first confused. But now—how you remember me!"

"I am very sorry to disappoint you," he replied. "But I cannot permit you to deceive yourself. I do not remember you. I can only conjecture that you may be Miss Kirkland."

"Then you do remember, you do!" she cried.

She had come close to him, her eyes bright with hope. They were in a secluded corner of the porch. There were no houses across the street and no one was passing. She reached up her hands and clasped them on his

## GRADUAL IMPROVEMENT IN CAR SUPPLY BELIEVED IN PROGRESS

Production of Coke Will Expand Accordingly, As Heretofore.

### FURTHER GAIN LAST WEEK

Was Individual Rather Than Result of Improvement in General Conditions; Demand as Insistent as Ever; Export Demand Active; Prices High.

From The Weekly Courier.

Although the car supply for the region last week averaged a low point below that of the week immediately preceding, conditions this week and in prospect point to a gradual improvement in this essential particular which means, of course, that coke production will expand accordingly. The gain in production, which was quite noticeable during the week of May 22, was contained last week but in a slighter degree. The furnace plant outside of those of the H. C. Frick Coke company did relatively better than during any single week since the existing restriction in operation began. A few of the larger independent operations made better running time than they have been able to do for some time. These individual improvements, rather than changes in general conditions, enabled the region to register a gain of 7,400 tons which, added to the 23,500 gained in the previous week, makes a total gain of 31,500 tons since the low point was reached three weeks ago. The course also parallels the gains of a year ago which is itself a hopeful sign to those who are given to place faith in such things, especially when there is at this time apparently nothing in the way of a steady, but slow, climb to higher levels, except the observance of Memorial Day this week. That was not marked by a general shutdown hence will not figure to the same extent that the Easter holiday did.

The Pennsylvania and the Baltimore & Ohio railroads continue to keep their car service and supply to fair proportions, due regard being had to the transportation situation at large. The Pittsburgh & Lake Erie is not yet able to function properly through the Newell yards, insofar as relates to delivery of empties to the Monongahela railroad, but it is making progress in the direction of better service.

Demand for coke is quite as insistent as ever; prices for spot held to the market of a week ago with no retarding influence except that exercised by some large operators who resist the temptation to entertain fancy offers, preferring to do their full part in keeping the market within reasonable bounds. Great activity prevails in coal, particularly for export, stimulated by a price of \$8.00, and in some extreme cases even better. The probability that export business will be curbed by Congressional action seems to inspire no fear in some quarters although a number of brokers are fighting shy of this market, aware that the bottom may drop out over night leaving them with a lot of high priced coal in transit or on the docks, subject to confiscation.

The results being accomplished by the car committees at important railroad centers, in the matter of facilitating the despatch of freight, are such that railroad men are beginning to see the light of day in the long, dark night of car congestion. What has been thus far accomplished has been noticeable in the vicinity of the several centers of operation but presently it is expected the relief will extend out in all directions. The direct benefit to the coke region, when such an extension takes place, will be to ease the car situation very appreciably. The response will be enlarged coke production, but neither will be the growth of a few days. At best weeks will be required to affect this now very much to be desired end.

The estimated production of coke during the week ended Saturday, May 29, was 185,728 tons, contributed by the two districts in the following proportions: Connellsville, 106,258, an increase of 4,158 tons; Lower Connellsville, 79,470, an increase of 3,220 tons, or a total increase of 7,478 tons, as compared with the gain of 23,500 during the preceding week.

By interests the production was: Furnace 122,208, a gain of 3,338 tons; merchant, 63,520, a gain of 3,540 tons, compared with gains of 20,466 and 3,355 tons respectively during the week ended May 22.

There was a net gain of 51 in the number of ovens in blast, 189 having been added to the active list and 138 blown out. The change increased the furnace list by 63 and reduced the merchant list by seven. The principal reductions were: Leetown No. 5, 20 ovens; Leetown No. 1, 23; York Run, 20; Republic, 40. The gain was at Orient where the full complement of 480 ovens are now in service.

#### COKE TRADE SUMMARY.

Observers of the coke market have faith that the car situation is undergoing a steady but slow and certain movement toward a better supply and service. In support there is the evidence of more cars being available this far this week than during the corresponding days of last week. The Pittsburgh & Lake Erie, the hardest hit of all the railroads serving the region, as a result of the switchmen's strike, is not yet functioning fully. Through its Newell yards, in the matter of empty deliveries, but it is progressing in the right direction and that presently means more cars for distribution by the Monongahela railroad and larger coke production by the Lower Connellsville district, which has been held down to 50 per cent and less of normal capacity.

As the transportation tangle at the important distributing centers becomes cleared up, as is taking place, the effects will extend to the coke region with consequent improvement in both production and shipment records. The demand for coke and coal continues without abatement. The price of spot furnace holds close to the market of a week ago—\$15.00—but foundry has edged up \$2.00 meaning. Export coal at \$3.00 or better, is occupying the attention of those producers and brokers who are willing to take the risk of a sudden drop such as would result from the passage of the resolution before Congress to stop exports of coal during a stated period.

##### HOPE IN STEEL TRADE

Production Slightly Heavier But Preference Is Being Given to Moving Mills' Accumulations.

Special to The Weekly Courier.

NEW YORK, June 2.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

Shipping conditions generally in the iron and steel industry have improved materially in the past week, and the trade feels very hopeful as to the outlook, even though it may require two or three months for all the steel accumulated at mills to move forward. With the improvement that has occurred the mills as a whole have not reached the point of shipping day by day as much as they produce, though not a few mills now have an even break in this respect.

There is slightly heavier production of pig iron and crude steel than a week ago, but there is no great desire on the part of many mills to increase output, until this can be done without adding to the stocks already accumulated. The stocks of finished and unfinished steel at mills probably amounting to between 1,500,000 and 2,000,000 tons.

While the opinion is expressed by many close observers that the peak of high commodity prices in general has just been passed, and that declines may be looked for during the next few months, the pig iron and steel markets as they stand do not reflect any definitely declining tendency. Pig iron readily maintains the levels hitherto attained, while in steel products the only actual change is in the decrease in premiums that have to be paid for the earliest deliveries. The turnover in both pig iron and steel, however, is very small, and it has been the experience of these markets in the past that a waiting period usually occurs, after demand slackens, before prices actually yield to any noticeable extent. The sellers are with few exceptions well filled with business, and there is no incentive to cut prices at this time. Buyers are evidently convinced that waiting will force them to pay higher prices.

Export demand has grown distinctly quiet in the past week or so, and the trade is rather puzzled, since the latest reports from Great Britain have been of advancing prices, though not at the former rapid pace.

#### Helped Man and Wife.

Walter Farrand, 1093 Springfield Ave., Irvington, N. J., writes: "My back ached continuously, as did my wife's. After taking Foley Kidney Pills, we were surprised with the quick results. I recommend Foley Kidney Pills to any one who has kidney or bladder trouble." They help rid the blood of impurities that cause rheumatic pains, swollen, aching and stiff joints and muscles and other symptoms of kidney trouble. Sold everywhere.—Adv.

#### No Coal Inspection Plan.

Before his retirement from the office of director of the United States Bureau of Mines Dr. Van H. Manning withdrew his request to Congress to provide an appropriation of \$725,000 for the establishment and maintenance of federal inspection of coal.

## Summer Hats for Summer Wear

MILLINERS and millinery departments are featuring new displays of hats made for midsummer wear and calling attention to the distinctive character of this headwear. The spring hat makes its appearance very early, helping to beguile us with thoughts of bright and balmy days that usually lag far behind their cheerful harbingers.

The new displays for summer wear include hats for all occasions as may be gathered by a glance at the millinery pictured above. Here are street and dress hats with an example of a sport model. The most unusual hat in the group is made of plain and of broadened georgette with slipper straw, and piping braid contributing the unexpected but effective touches in its composition. The crown is of plain georgette with three rows of piping braid stitched about it. The brim of broadened georgette, built up with several rows of slipper straw about the edge and at intervals on the straw, small, flat, feather ornaments traverse the width of the brim. One can imagine this handsome, semi-dress affair in any of the fashionable colors, but it

needs no imagination to conclude that this is a difficult hat to make, an example of painstaking and beautiful artistry for which one must be willing to pay the price.

A soft hat made of hem-stitched silk shirred to a flexible foundation represents the sort of sports hat that is making itself at home everywhere. For the off-the-face trim and lower part of the crown the silk is shirred in close rows. What milliners call a "tight" rose is made of folds of silk and posed at the front. A handsome tailored model of Milan has a crown of georgette. It is a clever off-the-face shape, spirited and becoming and is smartly trimmed with a wing at the right side. Bearing it company as a representative of the great company of street hats there is a small, high-crowned saffier shape, with brilliant slipper straw applied to it—one of many such substantial looking and snappy models.

**Hog-King.**  
Miss Olivia Hogl, daughter of Mr. and Mrs. Joseph M. Hogl of Edgewood, Wheeling, W. Va., and John C. Klug, son of Mr. and Mrs. John Klug of Akron, O., was solemnized Tuesday morning at St. Michael's church at Edgewood. The bride wore her traveling suit of navy blue tulle, a pink georgette hat, and a corsage of pink roses. Following the ceremony a handsomely appointed wedding breakfast was served at the Windsor hotel. Pink roses centered the bridal table. At the conclusion of a honeymoon trip Mr. and Mrs. Klug will be at home in Akron where the former is in the automobile business. The bride has a number of friends in Connellsville, having frequently visited her. She is a niece of Mrs. Joseph Soisson and Mrs. Joseph Tippman, both of this city.

#### Nurses Get Diplomas.

Nine young women were given diplomas at the annual commencement exercises of the nurses training school of the Uniontown hospital held Tuesday evening in St. Peter's Episcopal church of Uniontown. The graduates are Misses Margaret Murphy, Belle McClintock, Mary McMillen, Margaret Peasey, Mary Dudas, Sarah Kettering, Harriet and Frances Girard and Althea Fowler. The invocation was by the rector, Rev. Donald Kent Johnston. R. F. Hopwood, president of the board of trustees, presented the diplomas.

## MEASURE OF RELIEF IN THE CAR SUPPLY HELPED COKE OUTPUT

Gain Was 20,000 Tons During Week Ended May 22; Demand Continues Intense; Prices High.

A slight measure of relief in the supply of cars at the ovens permitted an eight per cent increase in the production of beehive coke in the United States during the week ended May 22, says the weekly report of the United States Geological Survey, compiled by P. G. Tryon. The total output is estimated on the basis of shipments over the principal coke-carrying roads at 375,000 net tons, or 25,000 tons greater than that of the preceding week.

The increase was confined to Pennsylvania and West Virginia. In the Middle and Southern Appalachians production declined slightly. In the West, the situation remained unchanged.

The greatest improvement was reported from the Connellsville region, where production, as estimated by the Connellsville Courier, rose from 154,400 to 178,250 tons.

Demand for coke continues intense and from all districts high prices are quoted. The cumulative production since January 1, 1920, now amounts to 8,471,000 tons, an increase of 345,000 when compared with the corresponding period of 1919.

The production by states, compared with the corresponding week of 1919, was as follows:

## Airy, Summer Frocks

Lovely Dresses for Children's Day

All the charm of childhood has been caught in these nets so fine and sheer and in the organdies of a crispness to delight their wearers, or in the volles and other airy cottons which have been fashioned into such beautiful little dresses for the younger girls, who will wear them to the grade commencements, to garden parties and for Children's Day which is so near.

In addition to the cottons there are fleecy crepes of Georgette or crepe de chine, ribbon and 1/2" trimmed with wide sashes and lacy eton effect waists.

Young girls will revel in these lovely frocks which are shown in white and flesh, light blue, maize, peach, rose and Nile green, in sizes 5 to 14 years and priced from
